ANOTHER EXECUTION.

A WIFE POISONER GONE TO HIS HOME.

Thomas P. Bowman Hanged at Asheboro Yesterday—Extraordinary Efforts to Secure Commutation.

Yesterday at Asheboro, Randolph county, a white man named Thomas P. Bowman, was hanged for poisoning his wife. The NEWS made a special endeavor to obtain the particulars of the execution, but they had not been received up to the hour of going to press. The particulars of the crime, briefly detailed, are as follows:

On the 30th day of April, 1877, Thyrza A. Bowman, wife of Thomas P. Bowman, residents of Rockingham county, died suddenly, and the allegation was made that she was poisoned by her husband. They had been married twenty years, during which time six children were born unto them, all of whom but one, a girl of some ten years of age at the time of the murder, died young. Bowman was arrested, tried and convicted at the ensuing fall term of Rockingham Superior Court, and was sentenced to be hanged October 4, 1878. A new trial was granted, and the case was taken to the Randolph Superior Court, fall term of 1878, where he was again convicted and sentenced to be hanged yesterday. A motion for a new trial was argued before the Supreme Court and denied.

The gist of the evidence was that she was a woman of unsound health, her lungs being seriously affected; that she kept a bottle of spirits in the kitchen and used it daily for the purpose of warming there, to prevent her husband from obtaining it; that on the fatal morning she had her husband give her a small quantity from the bottle, and that she was shortly seized with convulsions and died a few hours later; that the white women who lived but a short distance from the Bowmans, assisted more or less in doing the household work. It was also shown that Mrs. Bowman entertained a jealousy of a colored woman living some little distance from the Bowmans, maintained equivocal relations with this woman, and that a mutual hatred existed between the women; also that the three white women did not go near Mrs. Bowman while dying, although her screams could be heard a quarter of a mile away. Further, the attorney for the deceased had stated that the dying woman said that her husband had given her the dose which was killing her. The daughter, Eliza J., a girl of eleven or twelve years, denied this in her evidence, and was shown that she would come from the other room, and the defense undertook to make it appear that some other person had a strong motive for putting her out of the way, while Bowman had none. The evidence was conflicting, but the different juries found guilty. The town also received a letter from a Daily Round stating that Bowman was a wronged man. Since then appeals have been made to Governor Jarvis to grant a commutation of the sentence to imprisonment for life, one petition having been forwarded by the 11th inst., with seventy-nine signatures, and another sent on the 23d by David S. Reid, Esq., with fifty-three. In opposition to this was a letter stating that such commutation would be a disservice to the best citizens of Rockingham county, they believing him to be guilty. Thereupon the Governor, after thoroughly reviewing the case, declined to interfere with the sentence of the Court.

End of the War in Africa.

London, August 29.—An extra edition of the daily *Telegraph* contains the following dispatch from Pietermaritzburg, dated August 12th: "Sir Garnet Wolseley arrived at Umlandi on the 10th of August, and has been received from the place as follows: 'Colonel Clinton column joined the one here on the 11th. The country is quiet. The enemy's army has dispersed to their homes. I am in communication with the principal chieftains, who say they will come in and submit to the king's terms. The war is now off, and there is a prospect of an early and peaceful settlement of the difficulties. The health of the troops is excellent.'

A telegraphic dispatch from Cape-town says: Notwithstanding Wolseley's preference for an excellent author, that Statutes, at the last moment, refused to join in the operation for the capture of Cetewayo. The Oham King, Cetewayo's brother, has refused to return to his own district, declaring a large Zulu army would be sent to him. Sir Garnet Wolseley telegraphs that a cavalry reconnaissance to Cetewayo's new kraal to the north of Ulundi has recovered two canons lost at Isandula. There have been severe storms and the bridge over Tugela river has been partially destroyed.

Greenback Committee.

UTICA, N. Y., August 29.—In the Greenback convention the committee on permanent organization, represented by chairman, Commodore William Vroomis, and three other Vice Presidents, Vroomis was denounced as a National banker and "wolf in the fold."

Ferguson, of Troy, moved to substitute the name of George E. Williams. Vroomis admitted he was not to be party-sman. National banks; was in favor of destroying National bank currency and substituting greenbacks; did not want Union and would not take one. Williams declined to be elected permanent chairman.

Little Rock's Board of Health.

LITTLE ROCK, Ark., August 29.—The Little Rock Board of Health last night adopted resolutions declaring that after September 6, on account of the great expense, the Board will exercise supervision over quarantine no further than five miles from the city. The State Board will likely assume supervision over the general quarantine.

Yellow Jack.

METUCHEN, August 29.—Five cases were reported to the board of health this morning. Seven deaths since last evening, among the number were: Louis Fazio, W. H. Johnson, Mary McCormick and Jane Whitehead. Elias McDougal is still alive, but dead.

The *Times* says the fever this year has been confined within the perimeter bounded by Canal, First, Second and Seventh streets; and there are now said to be within this area five cases, and of these one is believed to be convalescent, one was attacked Friday morning, and August 25th, and the other since that date.

WASHINGTON, August 29.—The National Board of Health received this afternoon

afternoon a telegraphic requisition from New Orleans for a quantity of oil, and was sent \$10,000 to the board of health of that State, to be used in the work of isolation and disinfecting.

Dr. Bemiss, at 4 p. m., reports three new cases of yellow fever at Mississippi City.

Cotton Brokers Circular.

LIVERPOOL, August 29.—This weeks circular of the Liverpool Cotton Brokers association says: "In the early part of the week a large business was done in cotton, advancing prices and although on Tuesday Mr. Wheeler, the market was comparatively quiet to-day (Thursday) activity was renewed and quotations generally, show a considerable advance American cotton has been in large request and quotations generally, show a quiet d. Sea Island continues in an improved demand chiefly for medium grades. Florida unchanged, the prices of fixtures for the most part were strong and active during the week and although the market was quiet a smart reduction, price advanced on the quarter d. to 9-32 d. for near and 5-32 d. for distant positions."

First New Rice Crop.

CHARLESTON, S. C., August 29.—The first consignment of the new rice crop was sold here to day. It was bought by Dan Talmage Sons & Company for their New York house.

LATE NEWS NOTES.

A California paper nominates Dennis Kearney for President.

The daughters of N. P. Banks have registered and will vote at the next election.

It is suggested by an exchange that Beecher and Conkling go on a lecturing tour together.

Secretary Sherman will extend his Western trip to Milwaukee, and there make a speech.

The *Conservative* thinks that Rev. Dr. Wiltsie is the favorite for the next Governor of Louisiana.

The orchestra at the next Grand Union, Saratoga, is paid \$800 a week, and the board included of the twenty performers.

Fanny Davenport has purchased for \$4,500 a piece of property at Canton, Pa., which will hereafter be her summer residence.

Mr. L. S. Stedman May is at Newport. So also is Mr. James Gordon Bennett. Bennett will return to Europe at the close of the Newport season.

Rev. Isaac S. Kalloch has the credit of raising the famous trotting horse Rarus. We believe, however, that the horse was never so fast as the preacher.

Senator Jones, of Florida, interviewed in Atlanta, the 25th, said: "The Senate is too good for me."

Mr. L. S. Stedman is at the close of the session.

Mr. Rowland Hill, the originator of the credit letter, died at his residence in Hanover, N. H., half past four o'clock last Wednesday morning, at the age of forty-four years.

Mrs. A. T. Stewart, Judge Hilton and the lady friends of Mrs. Stewart have given up their apartments at the Grand Union, Saratoga, and returned to New York.

Miss Lydia Sherman, niece of the late General T. W. Sherman, of New York, R. I., whose disappearance after church Sunday night caused much anxiety among her friends, has been found. She had suddenly taken a freak to take a trip on a Fall River boat.

We feel sure, for instance, that Col. Polk did not authorize, and if in sole charge would not have ordered him to do so, the gentleman west of the Blue Ridge of \$100 a month, for seven months, besides freightage and other expenses, to get out of a spot of money to send to Paris, but which came to him in the course of time on the side walk in front of the department. Neither would Colonel Polk have sent the gentleman in Charlotte to visit his New England friends, and scatter a few pamphlets at an expense of above \$400, ostensibly in aid of immigration, but far beyond his power to do so, somebody having got him into a position of a high master mind, whose action shall be prompt, energetic and exciting.

DAILY NEWS

GEO. C. JORDAN, Editor and Prop'r.

SATURDAY, - AUGUST 30, 1879.

A WORD ABOUT THE DEPARTMENT OF AGRICULTURE.

We copy an editorial of our friends of the *Farmer and Mechanic*, in which objection is urged to the constitution of the Board of Agriculture, and the proposition made that the controlling head of the Department shall consist of one officer. We cannot agree with our neighbor, and will briefly state our views.

The time-honored policy of our State has been one of opposition to the one-man power. Wherever any large measure of discretion has been required in the disposition of the affairs of the institution of the State, or the disbursement of the money of the people, North Carolina's mode of administration has been through a Board charged with the duty. It is true of the construction of our public works; it is equally true of the management of our charitable institutions; it applies to the control of the University, and in fact the Board of Education is an example of the same likewise.

Wherever certain well-defined duties are laid down by the law, and the margin for discretion in the management is limited, a single officer is appointed for the work, as in the case of the Auditor or Treasurer, or any other purely executive officer. But when important interests, including a great variety of details, and involving careful judgment, and many varying considerations, with large and continuous expenditure, and a personnel of employees in the service of the State are to be guided and controlled for the general good, our ancestors always preferred to commit their direction and care to several citizens, rather than to any one person.

It is also a North Carolinian custom, in which we differ from many other States of the Union, to ask these high and important services of eminent citizens without salary or reward. It has ever been esteemed a high honor to hold a position in one of the several Boards controlling the various State institutions, because it implies confidence in the wisdom of the person so appointed, and trust in his good faith and patriotism to preserve intact the best interests of the State.

Indeed, so highly was the advisory and restraining power of the voices of several men, good and true, esteemed by our forefathers, that even the chief executives of the commonwealth was surrounded by his council, in former days, and even now the principal executive officers at the Capitol constitute ex-officio several Boards for the guardianship of various institutions, such as the State Library, etc.

It would seem almost self-evident that the collective information and experience of several gentlemen acquainted with the wants and the public sentiment of their several sections of the State should be more effective and more fairly balanced than that of any single individual, however accomplished. When to this is added peculiar fitness, by reason of association with innumerable kindred duties of a public character, we conceive the position to be greatly strengthened. Our conviction is clear that no one man should be invested with absolute power over the great sums paid yearly into the treasury for the Agricultural Department, nor should he have it in his power to direct the policy of an institution that reaches by a net work of correspondents over every township in North Carolina, and is capable of being transformed into one of the most powerful engines of political ambition ever conceived. On this we are sure that the people are firm.

The Experiment Station of Connecticut is managed most creditably by a Board, with a Secretary as the executive officer, in the place of our Commissioner. Such we believe was the original intention of the framers of the act creating the Department of Agriculture. In that case the public would, from the beginning, have placed the responsibility for the direction of the Department upon the Board, as was really intended. But instead of that, we are of opinion that much credit was given in the inception and organization of the Department to the Commissioner, which was due in a large measure to the Board, and now that some of its developments prove to be unpopular there are apparently a disposition to discover that the blame is due to the Board. We submit that this is not quite fair. We are the apologists of neither, but we would suggest that the greatest want of the public in this matter is accurate information.

The Georgia plan, as it is called, provides for a Commissioner with full control, but as the Agricultural Department in that State is at this time the subject of heated controversy in regard to its management, it would be well to wait before hastily advocating a departure from our old ways in this State to imitate her in this respect.

As to the personnel of the present Board, it seems to us to be eminently well constituted, for the most part. Who are these? The President of the State Agricultural College (for it must be remembered that the University is not represented in this Board *per se*, but only as it is in the College of Agriculture and the Mechanic Arts, for which the State pays interest on the forfeited scrip), who is at the head of agricultural instruction in our borders, and under whose eye lies the Director of the Experimental Station, with his attaches; the President of the State Agricultural Society, one of the largest and most experienced practical farmers and manufacturers in the State, and whose position brings him in contact with the advanced agriculturists of North Carolina; the Master of the State Grange, who is at the head of an organization with affiliated branches in every section of the State devoted to the improvement of the farmer's condition; the State Geologist, who is or ought to be familiar with the capacities and resources of every part of North Carolina, and whose scientific advice must be invaluable to such a Board, and the Governor, who at least, by virtue of the prominence that has elevated him into position, is presumed to know and

guage the men fit to be officers and employees of the department. To these the law adds two farmers chosen for their devotion to and knowledge of agriculture as it is practised among us.

We do not say that there are not defects in the law. We think there should be a fixed term of office for the Commissioner, with a regular limitation, and for others likewise, so that the election of another would not imply absolute extension from office. This should apply to the two members of the Board, also chosen from the citizens. We are not sure that the lawyers could not pick a hole in the constitutionality of the choice of an officer of a secret society as a constituent member of a State Board. We wish to express our views in perfect candor. It is by the ripple of opposing tides of opinion that the golden sands of truth will be deposited deep in the public heart.

POLITICAL NOTES.

The vigor with which the Republicans are everywhere pushing the canvass must be gratifying to all members of the party.

You might as well fire a popgun at rhinoceroses, Mr. Field, as to attempt to injure Tilden by showing up his elevated railroad.—*New York Tribune*.

The Wisconsin Republicans have begun their campaign without waiting for the Democrats to make their nominations. A thorough canvass of the State has been planned and will be vigorously carried out.

General Garfield made his first speech since his return to Ohio at Wadsworth, May 25th evening. It was in his usual style, and was received with enthusiasm. He leaves in a few days for Maine, where he will deliver five speeches next week.

General Woodford laughs and emphatically denies the story that Secretary Garfield had presented him with a pair of pistols to defend himself from the Mississippi "bully dogs"; he declares that he is neither the owner nor the possessor of a pistol.

Butler is said to be quietly at work in the preparation of his arguments, documents and strengthenings the points where he proved weakest last fall. There will be less talk and prattle in his canvass this year, but more real work. He is not so foolish as to repeat the tactics last year when he was similarly beaten.

The versatile General evidently believes there is more than one way to capture the Executive chair of the old Bay State.

Hartcraft as Hangman.

New York World.

—"Hartcraft," the country-seat near

Yonkers which Mr. Tilden leased with the privilege of purchase, was sold to him yesterday for \$150,000. The sale includes the house and about fifty-five acres of grounds. The place is a mile from New York City, and extends back from Broadway and extends back to Hudson River Railroad. It cost \$25,000, and its purchase for \$150,000 is regarded as real estate merely a great bargain, since any one with ready money at command can at any time buy a house and grounds in New York City.

The former owner was Mr. Waring, a well-known contractor for labor in State prisons, who is now living in the east, where he has several contracts for the manufacture of shoes in State prisons and penitentiaries.

Wealth Among the Ex-Presidents.

Washington left an estate worth

\$800,000. John Adams died moderately well off.

Jefferson died so poor that if Congress had not given \$20,000 for his library he would have been bankrupt.

Monroe died so poor that he was buried at the expense of his relatives in this city. John Quincy Adams left about \$50,000, the result of prudence.

His son, Charles Francis Adams, died moderately well off by marriage.

Buren died worth some \$300,000.

It is said that during his entire administration he never drew any portion of his salary, but on leaving took the whole in cash.

Taylor made a lady of wealth and accomplishments, and died rich. Taylor left about \$150,000. Fillmore was always an economical man, and added to his wealth by his last marriage. Pierce saved about \$90,000. Buchanan left about \$200,000. Lincoln, about \$75,000. Johnson, about \$50,000.—Ex.

Hendricks Interviewed.

NEW YORK, Aug. 27.—Ex-Governor Thomas A. Hendricks of Indiana informed a reporter who interviewed him at the Avenue Hotel to-day, that it was his intention to leave the city for his home in Indianapolis Friday evening.

He added that he had not seen ex-Governor Tilden as yet, as he had been very busy attending some legal matters which had come up, and had not had time to stay longer than he expected. "Will you take any part in the Ohio canvass this fall?" was asked. "Yes, it is very probable I will. I have been invited to speak at some meetings, and may speak at three or four places. I may say, as where I shall leave the matter for the committee to decide. I think Ewing will be elected. I saw several Ohio people here lately, among them Mr. Thompson and Mr. McKinley, of the same community, and they were very confident." "Have you formed any opinion as to the political situation in this State?" "I have seen but few prominent politicians on the Democratic side, but am of the opinion that New York will go Democratic, if the party is only united."

A Profane old Farmer who is Proud of Tilden.

Correspondence New York Sun.

In a letter to this paper, in regard to Mr. Tilden, this old farmer thus expresses himself: Sir—I am d—d glad to hear Sam Tilden has stuck Field. Hope it's right. They have been sticking ev'ry body they could get their hands on all their lives, and it's a positive pleasure to me, an old farmer down here, 85 years of age, to learn there is one man in these United States capable of carry-

ing out such a contract. I spoke to the way from here, and we kind of calculate he's the man for our vote for President, whether the scurvy politicians nominate him or not. Just put that down for a sure fact.

Slightly Mixed.

Wilmington Star.

A sedate and steady-going citizen, who seldom or never—well, perhaps hardly ever—mixes things else, in any way, with the rest of the interested spectators, of that enormous watermelon reported in these columns as weighing 52 pounds, more or less, and shortly afterward had his ideas of the marvelous further enlarged by a certain Mr. Tilden, of the Presbyterian church, which he was told was 152 feet high. Wending his way homeward, he astonished his family by gravely asserting that he had seen a watermelon weighing 152 pounds, and further that the Presbyterian church steeple was exactly 52 feet high. Supper was eaten in silence that night, the impression prevailing that the head of the family had—well, somehow or other, gotten something decidedly queer, and that he was to be sent to bed, however, the following morning by an amusing explanation, and happiness once more reigned supreme in that family, whose equanimity had only been a trifle jostled by these vagaries.

VEGETINE

—WILL CURE—

SCROFULA,

Scrofulous Humor.

VEGETINE will eradicate from the system every trace of Scrofula and Scrofulous Humor. It has permanently cured thousands in Boston and vicinity who had been long and painful sufferers.

Cancer, Cancerous Humor.

The remarkable effect of VEGETINE in case of Cancer and Cancerous Humor challenges the most profound attention of the medical faculty, many of whom are prescribing VEGETINE to their patients.

Canker.

VEGETINE has never failed to cure the most intractable case of Cancer.

Mercurial Diseases.

THE VEGETINE meets with wonderful success in the cure of this class of diseases.

Pain in the Bones.

In this complaint the VEGETINE is the greatest remedy. It removes the cause of the disease.

Salt Rheum.

Tetter, Salt Rheum, Sealed Head, &c., will rapidly remove the great greater effects of VEGETINE.

Erysipelas.

VEGETINE has never failed to cure the most intractable case of Erysipelas.

Pimples and Humors on the Face.

Reason should teach us that a blotchy, rough or pimpled skin depends entirely upon an internal cause, and not outward application can ever cure the defect. VEGETINE is the great blood purifier.

Catarrh.

For this complaint the only substantial benefit can be obtained through the blood. VEGETINE is the great blood purifier.

Constipation.

VEGETINE does not act as a cathartic to dilate the bowels, but cleanses all the organs, enabling each to perform the functions devolving upon them.

Filis.

VEGETINE has restored thousands to health who have been long and painful sufferers.

Dyspepsia.

VEGETINE is taken regularly, according to directions, a certain and speedy cure will follow its use.

Faintness at the Stomach.

VEGETINE is not a stimulating bitters which creates a hasty appetite, but a gentle tonic, which assists nature to restore the stomach to a healthy action.

General Debility.

VEGETINE acts directly upon the cause of the disease, and in its action acts upon the whole system, acting upon the secretive organs and alays inflammation.

General Debility.

In this complaint the good effects of VEGETINE are realized immediately after commencing to take it; as debility denotes deficiency of the blood, and VEGETINE acts directly upon the

blood, and thus cures the debility.

Gracy Bert was released on payment of one-fourth of the cost. Mr. R. G. Lewis and Judge Fowle appeared for the State and made undignified remarks.

— A large and fashionable audience, composed of young ladies for the most part, gathered together at Lincke's bathing pond yesterday morning to gaze attentively on the gambols of the boys in the water. It was an intensely thrilling scene as the enraptured throng lined the classic banks of the limpid

stream, and the festive youths disported themselves in the waters beneath. The result proved so successful that Mr. Lincke has consented to repeat it this morning.

Maury's Wall Maps.

Every school should have a set of good wall maps. Geography can be much easier learned by a child when assisted by large maps. Maury's Wall Maps, set of eight, will be furnished for \$10.00 net, by Alfred Williams & Co., Raleigh.

Weather Probabilities.

Cold, with high winds and rain. Exposure to this weather is sure to produce colds and kindred diseases; and the best remedy we know of is Hall's Balsam for the Lungs. Always keep the bottle upon the charge of slandering a lady by means of postal cards. His trial was progressing yesterday and a report from one of our Orange correspondents will be published in tomorrow's News.

The Good Samaritan.

The L. O. G. S. (colored) lodge No. 47, of Raleigh, celebrated the fourth anniversary of its organization Thursday.

They had a parade in the afternoon and a festival in the Metropolitan Hall in the evening, when the colored people attended.

Rev. F. R. Howard, Secretary of the Grand Lodge, J. T. Jones, W. C. of Raleigh Lodge, and others. There was a large attendance, and music and refreshments made the time pass pleasantly.
